

HEALTH, SAFETY AND SECURITY TRAINING

Cargo and Supply Chain Security

3 day course

Classroom, online or in-house

Course overview

Cargo is stolen where it stops, and on the corridors of this region it stops often: at borders, at weighbridges, at overnight halts and wherever a driver chooses to park. This course works along that route. Delegates work through cargo crime patterns, including hijacking, pilferage, deviation and the documentation fraud that moves a load legitimately into the wrong hands. Consignment risk assessment follows, since a high theft target needs controls a low value load does not. Vehicle and trailer security is covered, including seals, locks, immobilisation and the seal integrity checking that most operations skip. Tracking and monitoring are addressed, including geofencing, stop alerts and the response that must exist for an alert to matter. Driver selection, vetting and duress procedures follow, as insider involvement is common. Route planning and secure parking are covered. Facility security at depots and cross docks is addressed. Customs and border processes are covered as both a delay and a risk point. The course closes on loss investigation, insurance and supply chain security certification.

What you will learn

- Recognise hijacking, pilferage, deviation and documentation fraud
- Assess consignment risk and match controls to value
- Apply seals, locks and immobilisation with integrity checking
- Use tracking, geofencing and alerts with a real response behind them
- Vet drivers and establish duress procedures
- Plan routes and secure overnight parking
- Secure depots, manage border risk and investigate a loss

Who should attend

- Transport and logistics security managers
- Fleet and depot supervisors
- Supply chain risk and insurance staff
- Freight forwarders and cross border operators
- Investigators working cargo crime

Course outline

- 01 Stolen where it stops
- 02 Hijacking, pilferage and deviation
- 03 Documentation fraud
- 04 Consignment risk assessment
- 05 Seals, locks and integrity checking
- 06 Tracking, geofencing and response
- 07 Driver vetting and duress procedures
- 08 Routes, parking, depots, borders and loss investigation

Upcoming dates

Dates	Venue	Format	Fee per delegate
21 to 23 September 2026	Johannesburg, South Africa	Classroom	R14,950
23 to 25 November 2026	Online	Online	R6,500
22 to 24 February 2027	Nairobi, Kenya	Classroom	USD 995
22 to 24 March 2027	Kigali, Rwanda	Classroom	USD 995

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
