

HEALTH, SAFETY AND SECURITY TRAINING

Cash in Transit and Valuables Handling

3 day course

Classroom, online or in-house

Course overview

Cash in transit attacks are planned, rehearsed and violent, and they target predictability, which means the controls that work are about varying what an attacker can observe rather than about what is carried in the vehicle. This course is built on that. Delegates work through the threat, including how attacks are planned, the surveillance that precedes them and the inside information most rely on. Route and timing variation is addressed as the primary control. Vehicle selection, crewing and the equipment carried are covered. Pavement work is addressed in detail, since the walk between vehicle and premises is where most attacks happen: approach, positioning, cover and the decision not to proceed. Premises handling follows, covering safes, time locks, drop procedures and the dual control that removes single point access. Cash processing and reconciliation are covered. Insider risk is addressed directly, including vetting, rotation and the indicators of collusion. Response to an attack is covered, including compliance rather than resistance. The course closes on incident debriefing and on working with police.

What you will learn

- Explain how attacks are planned and the surveillance that precedes them
- Vary routes and timing as the primary control
- Select vehicles, crew and equipment appropriately
- Manage pavement work including approach, cover and aborting
- Apply safes, time locks, drop procedures and dual control
- Address insider risk through vetting, rotation and collusion indicators
- Respond to an attack safely and debrief afterwards

Who should attend

- Cash in transit crews and supervisors
- Bank and retail cash handling staff
- Security company operations managers
- Risk managers in financial services and retail
- Investigators working cash related crime

Course outline

- 01 Attacks target predictability
- 02 How attacks are planned and rehearsed
- 03 Route and timing variation
- 04 Vehicles, crewing and equipment
- 05 Pavement work and the decision to abort
- 06 Safes, time locks and dual control
- 07 Cash processing and reconciliation
- 08 Insider risk, attack response and debriefing

Upcoming dates

Dates	Venue	Format	Fee per delegate
21 to 23 September 2026	Lagos, Nigeria	Classroom	USD 995
28 to 30 September 2026	Maseru, Lesotho	Classroom	R14,950
19 to 21 October 2026	Online	Online	R6,500
11 to 13 November 2026	Lusaka, Zambia	Classroom	USD 995

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
