

MAINTENANCE MANAGEMENT TRAINING

Computerised Maintenance Management Systems

3 day course

Classroom, online or in-house

Course overview

A maintenance system holds the record of what an organisation owns and what has been done to it, and most contain data too poor to answer either question. This course covers making one useful. Delegates work through asset register structure and hierarchy, which determines everything that can later be analysed, work order lifecycle and the discipline of closing one honestly, and failure coding that produces analysable history rather than a free text field. Preventive schedules, resources and planning within the system follow. Reporting and the analysis the data should support are covered. The course closes on data cleanup of an existing system and on implementation without repeating the previous failure.

What you will learn

- Structure an asset register and hierarchy that supports analysis
- Run the work order lifecycle and close work honestly
- Apply failure coding that produces analysable history
- Build preventive schedules and plan resources in the system
- Produce reporting that answers real maintenance questions
- Clean up the data in an existing system
- Implement or replace a system without repeating past failures

Who should attend

- Maintenance planners, schedulers and supervisors
- Maintenance and reliability engineers
- System administrators and key users
- Storekeepers and materials staff using the system
- Managers implementing or replacing a system

Course outline

- 01 A record too poor to answer the question
- 02 Asset register structure and hierarchy
- 03 Work order lifecycle
- 04 Closing work honestly
- 05 Failure coding and analysable history
- 06 Preventive schedules and resource planning
- 07 Reporting and analysis
- 08 Data cleanup and implementation

Upcoming dates

Dates	Venue	Format	Fee per delegate
21 to 23 October 2026	Durban, South Africa	Classroom	R14,950
22 to 24 February 2027	Pretoria, South Africa	Classroom	R14,950
22 to 24 March 2027	Online	Online	R6,500
29 to 31 March 2027	Maputo, Mozambique	Classroom	USD 995

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriscience.co.za, or WhatsApp us on **+27 63 479 1136**.
