

GOVERNANCE, RISK AND COMPLIANCE

Corporate Governance, Risk and Compliance Practitioner Programme

3 day course

Classroom, online or in-house

Course overview

This intensive programme builds practitioner level capability across governance, risk and compliance by consolidating the three disciplines into a single integrated body of knowledge. Participants work through case based assessments covering governance structures, enterprise risk and compliance obligations, building the cross functional fluency that senior GRC roles demand across African markets.

What you will learn

- Integrate governance, risk and compliance disciplines into a single operating framework
- Apply recognised GRC body of knowledge concepts to organisational case studies
- Design an integrated GRC assurance map covering the three lines of defence
- Demonstrate competence through practitioner level case assessments
- Build a personal development plan for advancing into senior GRC roles

Who should attend

- Aspiring and practising GRC managers
- Internal auditors moving into integrated assurance roles
- Risk and compliance officers seeking practitioner accreditation
- Company secretaries expanding into risk and compliance
- Consultants advising on GRC implementation

Course outline

- 01 Foundations of the integrated GRC discipline
- 02 Governance structures and accountability in the GRC model
- 03 Enterprise risk management within the GRC framework
- 04 Compliance obligations and regulatory mapping
- 05 Building the integrated assurance map and three lines coordination
- 06 Practitioner case assessments and development planning
