

GOVERNANCE, RISK AND COMPLIANCE

Governance of Enterprise IT for Board and Executive Oversight

3 day course

Classroom, online or in-house

Course overview

Boards are asked to approve technology investment and answer for cyber incidents without a vocabulary for either, so they either defer entirely to the technology function or challenge the wrong things. This course builds that vocabulary. Delegates work through what technology governance actually asks of a board, the difference between governing and managing technology, and the investment questions a board should press: what capability this buys, what it costs to run, and what happens if it fails. Portfolio oversight and the projects a board should see follow. Cyber and resilience oversight is covered at board level. Data governance, privacy obligations and the risks that attach to holding customer data are addressed. Technology debt and legacy systems are covered honestly. The course closes on assurance and on what a board should require before approving a major programme.

What you will learn

- Distinguish governing technology from managing it
- Press the right questions on a technology investment case
- Oversee a portfolio and know which projects a board should see
- Oversee cyber risk and operational resilience at board level
- Understand data governance and the obligations of holding customer data
- Recognise technology debt and the risk carried by legacy systems
- Require appropriate assurance before approving a major programme

Who should attend

- Non executive directors and audit committee members
- Chief information and chief digital officers
- IT steering committee members
- Chief risk officers
- Senior finance executives overseeing technology spend

Course outline

- 01 Approving what you cannot assess
- 02 Governing against managing technology
- 03 The investment case and the right questions
- 04 Run cost and failure consequences
- 05 Portfolio oversight
- 06 Cyber and resilience at board level
- 07 Data governance and privacy obligations
- 08 Technology debt, legacy risk and assurance

Upcoming dates

Dates	Venue	Format	Fee per delegate
21 to 23 September 2026	Pretoria, South Africa	Classroom	R14,950
11 to 13 November 2026	Cape Town, South Africa	Classroom	R14,950
23 to 25 November 2026	Online	Online	R6,500

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.
