

## OIL, GAS AND PETROCHEMICALS TRAINING

# Offshore Platform Operations and Supervision

5 day course

Classroom, online or in-house

## Course overview

On an offshore installation the supervisor runs a small town as well as a plant, with helicopters, supply vessels, cranes, crews and contractors all competing for the same deck space and the same permit desk. This programme is about that supervisory job. Sessions cover the installation organisation and the duties of the person in charge, then permit to work, isolations and the control of simultaneous operations, shift handover and the daily planning meeting. Marine and aviation logistics, lifting, personnel on board limits and bed management follow. Emergency command is treated in depth: muster, abandonment, fire and gas response and the chain of authority. The final sessions address crew performance, fatigue on long rotations and contractor oversight. Supervisors return offshore ready to run a shift with firm control of both the installation and its people.

## What you will learn

- Describe the offshore organisation and the authority of the person in charge
- Apply permit to work and isolation controls on a congested installation
- Plan simultaneous operations between production, drilling and construction
- Conduct effective shift handovers and daily planning meetings
- Coordinate helicopter, supply vessel and crane activity safely
- Lead muster, emergency response and abandonment drills
- Manage fatigue, rotation patterns and crew welfare
- Supervise contractor work against agreed scope and standards

## Who should attend

- Offshore production supervisors and control room leads
- Senior operators preparing for supervisory posts
- Offshore installation managers and their deputies
- Maintenance and construction supervisors working offshore
- Onshore operations coordinators supporting offshore assets

## Course outline

- 01 The offshore installation and its organisation
- 02 Permit to work and isolation offshore
- 03 Simultaneous operations planning
- 04 Handover, planning meetings and reporting
- 05 Marine, aviation and lifting logistics
- 06 Emergency command, muster and evacuation
- 07 Fatigue, rotation and crew leadership
- 08 Contractor and campaign oversight

## Upcoming dates

| Dates                  | Venue                 | Format    | Fee per delegate |
|------------------------|-----------------------|-----------|------------------|
| 12 to 16 October 2026  | Addis Ababa, Ethiopia | Classroom | USD 1,325        |
| 1 to 5 February 2027   | Online                | Online    | R8,500           |
| 22 to 26 February 2027 | Port Louis, Mauritius | Classroom | USD 1,325        |

## Fees and how to register

This 5 day course is **R8,500** per delegate online, **R19,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 1,325** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.
