

HEALTH, SAFETY AND SECURITY TRAINING

Permit to Work and Energy Isolation

3 day course

Classroom, online or in-house

Course overview

A permit to work is the document that stands between a maintenance team and a live system, and permits fail through familiarity, time pressure and signatures given by people who did not go and look. This course covers running the system properly. Delegates work through permit types and when each applies, the roles of issuer, acceptor and area authority, and the hazard identification that must precede a permit rather than accompany it. Energy isolation is covered in full: identifying every energy source, isolation, locking, tagging and proving dead. Cross discipline and simultaneous operations are addressed. The course closes on handback, on permit audit, and on the common failures that appear in incident reports.

What you will learn

- Select the correct permit type for a task
- Perform the roles of issuer, acceptor and area authority
- Identify hazards before a permit is raised rather than while raising it
- Identify every energy source and isolate, lock, tag and prove dead
- Coordinate cross discipline and simultaneous operations
- Manage suspension, shift handover and handback
- Audit a permit system and act on the failures it reveals

Who should attend

- Permit issuers, acceptors and area authorities
- Maintenance supervisors and technicians
- Operations and shift supervisors
- Safety officers auditing permit systems
- Contractor supervisors working under permit

Course outline

- 01 How permits fail
- 02 Permit types and their application
- 03 Roles: issuer, acceptor and area authority
- 04 Hazard identification before the permit
- 05 Energy sources and isolation
- 06 Locking, tagging and proving dead
- 07 Simultaneous and cross discipline operations
- 08 Suspension, handback and permit audit

Upcoming dates

Dates	Venue	Format	Fee per delegate
11 to 13 November 2026	Cape Town, South Africa	Classroom	R14,950
9 to 11 December 2026	Online	Online	R6,500
10 to 12 March 2027	Pretoria, South Africa	Classroom	R14,950

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia,

Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriscience.co.za, or WhatsApp us on **+27 63 479 1136**.
