

FINANCE AND TREASURY TRAINING

Real Estate Finance and Investment

5 day course

Classroom, online or in-house

Course overview

This course covers the analysis and financing of property investment. Delegates work through property valuation approaches, income and yield analysis, development appraisal and residual valuation, debt structuring and loan covenants, and the risk factors specific to property including tenant concentration, lease expiry profile and market cycle. The African property context receives direct attention: currency mismatch where rent and debt are denominated differently, title and registration risk, and the thinner transaction evidence available to support a valuation.

What you will learn

- Apply the main property valuation approaches
- Analyse income, yield and the drivers of property return
- Carry out a development appraisal and residual valuation
- Structure property debt and interpret loan covenants
- Assess tenant concentration, lease expiry and market cycle risk
- Address currency mismatch between rent and debt
- Evaluate title and registration risk in African markets

Who should attend

- Property investment and asset managers
- Bankers and lenders in real estate
- Developers and project sponsors
- Valuers and property professionals
- Institutional investors with property allocations
