

HEALTH, SAFETY AND SECURITY TRAINING

Safety Management Best Practice for Industrial Operations

3 day course

Classroom, online or in-house

Course overview

High tempo industrial operations generate pressure to keep going, and a safety system that only works when nothing is urgent is not a safety system. This course covers one that holds under production pressure. Delegates work through hazard identification and risk assessment as a live activity rather than an annual document, the hierarchy of control applied honestly, and safe systems of work including procedures people can actually follow at pace. Leadership behaviour is covered directly, since a supervisor who accepts a shortcut once has changed the standard. Contractor and interface control follows. Incident and near miss reporting are addressed as the early warning they should be, including why reporting falls when people are punished for it. Measurement is covered, distinguishing lagging injury numbers from leading indicators. The course closes on auditing a system rather than a file.

What you will learn

- Run hazard identification as a live activity rather than an annual document
- Apply the hierarchy of control honestly under production pressure
- Write safe systems of work people can follow at pace
- Recognise how a single accepted shortcut resets the standard
- Control contractors and the interfaces between crews
- Sustain reporting of incidents and near misses
- Measure with leading indicators and audit the system, not the file

Who should attend

- Production and operations supervisors
- Safety officers and safety coordinators
- Maintenance team leaders
- Quality and continuous improvement staff
- Plant and factory managers

Course outline

- 01 A system that only works when nothing is urgent
- 02 Live hazard identification and risk assessment
- 03 The hierarchy of control under pressure
- 04 Safe systems of work at pace
- 05 Leadership behaviour and accepted shortcuts
- 06 Contractor and interface control
- 07 Incident and near miss reporting
- 08 Leading indicators and auditing the system

Upcoming dates

Dates	Venue	Format	Fee per delegate
5 to 7 October 2026	Online	Online	R6,500
28 to 30 December 2026	Lagos, Nigeria	Classroom	USD 995
15 to 17 February 2027	Gaborone, Botswana	Classroom	R14,950
24 to 26 February 2027	Johannesburg, South Africa	Classroom	R14,950

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriscience.co.za, or WhatsApp us on **+27 63 479 1136**.
