

SAP SYSTEMS TRAINING

SAP Business Technology Platform and Clean Core Extensions

5 day course

Classroom, online or in-house

Course overview

Every modification made inside the core system is a cost paid again at each upgrade, which is why extension has moved outward and why the discipline of keeping the core clean now decides how expensive a landscape becomes. This course covers that shift. Delegates work through what clean core actually requires and the decision of whether an extension belongs in the system or beside it. Platform services are covered, including runtime environments, identity, connectivity and destination configuration. Building a side by side extension is worked through, including the application programming model and consuming core data through released interfaces rather than direct table access. Event driven integration follows. In app extensibility is covered for the cases where it is the right answer. Governance is addressed: who may build, how it is tested and what happens when the builder leaves. The course closes on cost, on operating extensions in production and on migrating existing modifications outward.

What you will learn

- Explain what clean core requires and why modifications cost twice
- Decide whether an extension belongs in the core or beside it
- Configure runtime, identity, connectivity and destinations
- Build a side by side extension using released interfaces
- Apply event driven integration between platform and core
- Use in app extensibility where it is the right answer
- Govern, operate and cost extensions, and migrate existing modifications

Who should attend

- SAP developers and technical consultants
- Solution architects designing SAP landscapes
- ABAP developers moving to platform development
- IT managers responsible for upgrade cost
- Integration specialists working across SAP and other systems

Course outline

- 01 A cost paid again at every upgrade
- 02 What clean core actually requires
- 03 Inside the core or beside it
- 04 Runtime, identity and connectivity
- 05 Destinations and released interfaces
- 06 Building a side by side extension
- 07 Event driven integration and in app extensibility
- 08 Governance, operations, cost and migrating modifications

Upcoming dates

Dates	Venue	Format	Fee per delegate
12 to 16 October 2026	Dar es Salaam, Tanzania	Classroom	USD 1,325
26 to 30 October 2026	Windhoek, Namibia	Classroom	R19,950
14 to 18 December 2026	Online	Online	R8,500
4 to 8 January 2027	Gaborone, Botswana	Classroom	R19,950

Fees and how to register

This 5 day course is **R8,500** per delegate online, **R19,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 1,325** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
