

SAP SYSTEMS TRAINING

SAP PS: Project Systems for Capital Projects

3 day course

Classroom, online or in-house

Course overview

Organisations running capital projects, infrastructure builds or plant shutdowns need disciplined cost and schedule control, and a project structure designed badly at the start cannot be reported on properly for the rest of its life. This course covers getting the structure right. Delegates work through work breakdown structures and networks and what each is for, planning cost and dates against that structure, and budgeting with availability control that actually prevents overspend. Commitment and actual cost flow from purchasing and time recording are covered. Progress measurement and period end processing including results analysis follow. Settlement to assets under construction and capitalisation are addressed, since this is where finance and engineering meet. The course closes on reporting and on closing a project properly.

What you will learn

- Design a work breakdown structure that can be reported on
- Use networks and activities where scheduling detail is required
- Plan cost and dates against the structure
- Budget with availability control that prevents overspend
- Trace commitment and actual cost from purchasing and time recording
- Run period end processing including results analysis
- Settle to assets under construction and close a project

Who should attend

- Project managers and project controllers
- Capital projects and engineering staff
- Cost planners and project accountants
- SAP PS end users and key users
- Programme management office analysts

Course outline

- 01 A structure you cannot report on
- 02 Work breakdown structures
- 03 Networks, activities and scheduling
- 04 Cost and date planning
- 05 Budgeting and availability control
- 06 Commitments and actual costs
- 07 Progress measurement and period end
- 08 Settlement, capitalisation and project closure

Upcoming dates

Dates	Venue	Format	Fee per delegate
14 to 16 October 2026	Accra, Ghana	Classroom	USD 995
30 December 2026 to 1 January 2027	Online	Online	R6,500
20 to 22 January 2027	Maputo, Mozambique	Classroom	USD 995
3 to 5 March 2027	Johannesburg, South Africa	Classroom	R14,950

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriscience.co.za, or WhatsApp us on **+27 63 479 1136**.
