

SAP SYSTEMS TRAINING

SAP Testing and Release Management

3 day course

Classroom, online or in-house

Course overview

A change that works in development and fails in production has passed through a testing and release process that did not represent reality, and the cost lands on the business rather than on the project. This course covers closing that gap. Delegates work through test strategy and the levels from unit through integration to user acceptance, test data that is representative without exposing production information, and defect management and the triage that decides what blocks a release. Regression testing and automation are covered, since a large system cannot be fully retested by hand. Release planning, cutover and rollback follow. Environment management and refresh strategy are addressed. The course closes on post release support and on the hypercare period that determines how a change is remembered.

What you will learn

- Design a test strategy across unit, integration and acceptance levels
- Prepare representative test data without exposing production information
- Manage defects and triage what blocks a release
- Apply regression testing and automation appropriately
- Plan a release including cutover and rollback
- Manage environments and refresh strategy
- Run post release support and hypercare

Who should attend

- Test managers, analysts and coordinators
- SAP functional and technical consultants
- Release and change managers
- Business users participating in acceptance testing
- Project managers delivering system change

Course outline

- 01 Working in development, failing in production
- 02 Test strategy and levels
- 03 Test data and production information
- 04 Defect management and triage
- 05 Regression testing and automation
- 06 Release planning and cutover
- 07 Rollback and contingency
- 08 Environment management and hypercare

Upcoming dates

Dates	Venue	Format	Fee per delegate
28 to 30 October 2026	Windhoek, Namibia	Classroom	R14,950
9 to 11 December 2026	Harare, Zimbabwe	Classroom	USD 995
21 to 23 December 2026	Pretoria, South Africa	Classroom	R14,950
10 to 12 February 2027	Port Louis, Mauritius	Classroom	USD 995

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
