

HEALTH, SAFETY AND SECURITY TRAINING

Scaffolding Erection, Inspection and Safety

3 day course

Classroom, online or in-house

Course overview

Scaffolds collapse and people fall from them for reasons that are visible during an inspection, which makes competent inspection the control that matters most. This course covers erecting and inspecting them. Delegates work through scaffold types and their application, foundations and bearing capacity, and the components and their correct assembly including ties, bracing and platform construction. Loading classes and the consequences of exceeding them are covered. Inspection is taught in detail: what to look at, in what order, how often and what to record. Alterations, incomplete scaffolds and tagging follow. The course closes on dismantling, on adverse weather, and on working near live services and edges.

What you will learn

- Select a scaffold type appropriate to the work
- Assess foundations and bearing capacity
- Verify correct assembly including ties, bracing and platforms
- Apply loading classes and recognise overloading
- Inspect a scaffold systematically and record the result
- Control alterations, incomplete scaffolds and tagging
- Dismantle safely and manage weather and live service hazards

Who should attend

- Scaffold inspectors and supervisors
- Erectors and dismantling teams
- Site and construction supervisors
- Safety officers on construction and maintenance sites
- Engineers and clients accepting scaffolds for use

Course outline

- 01 Failures visible during inspection
- 02 Scaffold types and application
- 03 Foundations and bearing capacity
- 04 Components, ties and bracing
- 05 Platforms, edge protection and access
- 06 Loading classes and overloading
- 07 Inspection routine and records
- 08 Alterations, tagging, dismantling and weather

Upcoming dates

Dates	Venue	Format	Fee per delegate
7 to 9 October 2026	Pretoria, South Africa	Classroom	R14,950
16 to 18 November 2026	Johannesburg, South Africa	Classroom	R14,950
29 to 31 March 2027	Online	Online	R6,500

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia,

Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
