

HEALTH, SAFETY AND SECURITY TRAINING

Security Risk Management and Physical Access Control

3 day course

Classroom, online or in-house

Course overview

Physical security is bought as guards, cameras and a boom gate, and defeated by a delivery driver who was waved through because the queue was long. This course covers designing security that survives normal operations. Delegates work through threat and risk assessment for the site and what it actually holds, layered protection from perimeter through building to asset, and access control including credential management and the tailgating that defeats it. Guarding is covered as a contracted service with instructions, supervision and the post orders that determine what a guard actually does. Surveillance is addressed honestly, including what cameras do and do not achieve without monitoring. Screening, deliveries and contractor access follow. Incident response and investigation are covered. The course closes on insider risk and on testing the arrangements rather than assuming them.

What you will learn

- Assess threat and risk against what the site actually holds
- Design layered protection from perimeter to asset
- Manage credentials and prevent tailgating
- Contract, instruct and supervise a guarding service
- Deploy surveillance with realistic expectations about monitoring
- Control screening, deliveries and contractor access
- Address insider risk and test the arrangements rather than assuming them

Who should attend

- Security managers and officers
- Facilities and estate managers
- Logistics and warehouse managers
- Risk and loss prevention staff
- Operations managers in high value or high risk sites

Course outline

- 01 Defeated by a long queue
- 02 Threat and risk assessment
- 03 Layered protection
- 04 Access control and credentials
- 05 Tailgating and how it happens
- 06 Guarding, post orders and supervision
- 07 Surveillance and monitoring reality
- 08 Deliveries, insider risk and testing

Upcoming dates

Dates	Venue	Format	Fee per delegate
16 to 18 November 2026	Nairobi, Kenya	Classroom	USD 995
14 to 16 December 2026	Online	Online	R6,500
28 to 30 December 2026	Lagos, Nigeria	Classroom	USD 995

Fees and how to register

This 3 day course is **R6,500** per delegate online, **R14,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 995** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriscience.co.za, or WhatsApp us on **+27 63 479 1136**.
