

FINANCE AND TREASURY TRAINING

Venture Capital, Private Equity and Alternative Investment

5 day course

Classroom, online or in-house

Course overview

This course covers investment in unlisted assets, where the analysis, the instruments and the exit all differ from public markets. Delegates work through fund structures and economics, deal sourcing and due diligence, valuation of early stage and private companies, term sheets and the rights attached to an investment, portfolio company governance, and exit routes and their realistic timing. The African context is addressed directly: fewer exits, longer holding periods, currency exposure over a fund's life, and the growing role of development finance institutions as investors in the region.

What you will learn

- Describe fund structures, economics and the alignment they create
- Conduct due diligence appropriate to an unlisted investment
- Value early stage and private companies
- Interpret a term sheet and the rights it confers
- Govern a portfolio company as an investor
- Assess exit routes and realistic timing in African markets
- Account for currency exposure across a fund's life

Who should attend

- Private equity and venture capital professionals
- Investment and fund managers
- Development finance institution staff
- Corporate development and strategy teams
- Entrepreneurs raising institutional capital

Course outline
